

## Food and Beverage

*For more than 40 years, AIS Vanguard has been providing specialist lifting, moving and industrial services expertise to the food and beverage sector.*

We understand that food and beverage manufacturing environments need to operate at optimum efficiency to maintain consistent production levels and quality. We also have experience of working in controlled environments where hygiene standards, contamination risk need to be considered as part of project planning and implementation. We have experience of working in organic-certified environments too. We collaborate with customers in the food and beverage sector to plan projects around your requirements including:

- + Planned shutdown periods
- + Site specific safety criteria
- + Business as usual operational requirements
- + Location specific access and egress restrictions
- + Lean production layouts
- + Process critical mechanical and electrical services

Whether you need help with routine operational activities or with a major project we can help. Our experience in the food and beverage sector includes:

- + Factory relocation and set-up
- + Asset rationalisation
- + Asset realisation
- + Asset optimisation and factory reconfiguration
- + Maintenance and servicing

Our experience in the food and beverage sector includes food manufacturers, processors and distributors, along with drinks manufacturers, bottling plants, breweries and distilleries. We work across the food and beverage sector, from ingredients through to packaging and logistics, including your supply chain partners in the OEM and manufacturing components sectors.
