

Manufacturing

For more than 40 years, AIS Vanguard has been providing specialist lifting, moving and industrial services expertise to the manufacturing sector.

The manufacturing sector is experiencing unprecedented levels of change; from the use of automation on the factory floor and increasingly complex machinery and components, through to commercial factors such as just in time delivery and changing import and export regulations. At AIS Vanguard, helping manufacturers to navigate change with as little risk or disruption as possible is core to what we do. We work with our manufacturing customers to plan and implement projects around your requirements including:

- ⊕ Planned shutdown periods
- ⊕ Site specific safety criteria
- ⊕ Business as usual operational requirements
- ⊕ Location specific access and egress restrictions
- ⊕ Lean production layouts
- ⊕ Process critical mechanical and electrical services

Whether you need help with routine operational activities or with a major project we can help. Our experience in the manufacturing sector includes:

- ⊕ Factory relocation and set-up
- ⊕ Asset rationalisation
- ⊕ Asset realisation
- ⊕ Asset optimisation and factory reconfiguration
- ⊕ Maintenance and servicing

Our experience in the manufacturing sector includes components manufacturers, OEMs, high tech industries and any manufacturing environment that operates heavy machinery and equipment. From installing robots and cranes, to helping you manage your maintenance schedules or reconfigure your site to improve efficiency, we can advise you on scheduling and phasing your projects around your commercial and operational needs. Whatever your requirements, we will provide a detailed method statement, accurate critical path and wide-ranging safety plan to ensure your project is delivered safely, on time and on budget.
