

Pharmaceuticals

For more than 40 years, AIS Vanguard has been providing specialist lifting, moving and industrial services expertise to the pharmaceuticals sector.

Our experience in the pharmaceuticals sector means we understand the challenges operators face in maintaining production levels and managing risk while mission-critical projects are carried out. Often this includes protecting clean-classified and controlled environments from the risk of contamination to protect both people and products. We work collaboratively with pharmaceutical clients to plan and implement projects around your requirements. This often involves phasing projects aligned to planned downtime, or making temporary modifications to your building to segregate the project area and avoid the risk of clean classifications, controlled environments or production efficiency being compromised. Our project planning and implementation in the pharmaceuticals sector considers:

- ⊕ Planned shutdown periods
- ⊕ Site specific safety criteria
- ⊕ Business as usual operational requirements
- ⊕ Location specific access and egress restrictions
- ⊕ Lean production layouts
- ⊕ Process critical mechanical and electrical services

Whether you need help with routine operational activities or with a major project we can help. Our experience in the pharmaceuticals sector includes:

- ⊕ Factory relocation and set-up
- ⊕ Asset rationalisation
- ⊕ Asset realisation
- ⊕ Asset optimisation and factory reconfiguration
- ⊕ Maintenance and servicing

Our experience in the pharmaceuticals sector includes drug manufacture and research environments, secure and controlled storage facilities, raw materials supply chain, medical equipment manufacturing and cosmetics and cosmeceuticals manufacturing. Projects often involve a rapid response from our team to enable customers to scale up production, add new production lines, install new equipment, carry out reactive maintenance or comply with servicing and maintenance intervals within tight shutdown windows. Whatever your requirements, we will provide a detailed method statement, accurate critical path and wide ranging safety plan to ensure it is delivered safely, on time and on budget.

Our services for the pharmaceuticals sector include:

Machinery moves and removals

Heavy, technical and complex lifting

Decommissioning

Installation

Mechanical and electrical services

CDM

Logistics

We are the industrial services partner moving the **pharmaceuticals** industry forward. **Get in touch today on 01257 447 647** to find out how our turnkey approach could help you deliver your goals.
