

Job Description

Company: AIS Vanguard Limited

Job Title: Rigger or Fitter

Reporting to: Branch Managers

Location: Glasgow, Wigan, Rotherham, Birmingham, London, Bristol

The Company

Ainscough Industrial Services is one of the UK's largest privately-owned industrial engineering companies and supports three subsidiary businesses; AIS Vanguard Ltd; AIS Wind Energy Ltd and AIS Eurelo Ltd providing engineering services to industry covering Machinery Installation and Relocation, Mechanical Engineering, Technical and Heavy Lifting and Wind Turbine Generator Construction on a National & International scale.

Purpose of the Role

This is a brilliant opportunity to use your rigging or fitting skills (or preferably both) to take your next step with a forward-thinking organization in a permanent in-house position.

At Ainscough Industrial Services, we take our business seriously and are committed to driving service excellence and delivering the very best for our customers.

You will have the chance to make a positive, lasting impact on the success of AIS Vanguard and get involved with a wide range of projects.

About the role

AIS Vanguard Limited are looking for a reliable, experienced Fitters & Riggers to undertake sites works alongside our teams of permanent and temporary trades people on jobs throughout the UK & Europe.

The work involved is typically machinery installations/removals, factory moves, heavy or technical lifting projects or any project requiring the movement of machinery, plant and associated ancillaries.

The content of the projects can include any or all of the following disciplines:- heavy lifting , mechanical assembly/disassembly , electrical works, industrial pipework , shipping, packing, demolition or any other required activity.

Although working out on site you would be allocated to one of our UK branch locations in either Wigan, Glasgow, Birmingham, Rotherham, London or Bristol from where you'd receive operational management & support.

Group wide you would be joining a professional company currently employing over 200 skilled staff throughout the UK and Europe.

AIS Vanguard is a well-equipped business that holds a large stock of specialized lifting and installation equipment designed to carry out our specialized engineering tasks allowing us to carry out our duties safely.
