

The Fassi Crane

Exceptional Lifting Performance

The Fassi crane stands out for its ability to combine exceptional lifting performance with a machine body that reduces structural dimensions to a minimum and aims at limiting tare weight. The Fassi loader gives much flexibility; it has the capability of a unit and trailer combo (4-axle semi low loader, extendable up to 15m), the truck can also be fitted with a small box body which measures 4.5m in length and 2.5m in width giving much greater accessibility and usability.

Dimensions & Boom / Jib Combinations

For further information in regards to dimensions and Boom / Jib combinations, please email: enquiries@ainscoughindustrial.co.uk

F820RA xhe-dynamic Fassi crane

- +** **LIFTING CLASS:**
Highest moment 80 tm / 785 kNm
- +** **MAX OUTREACH:**
up to 25,8 m with jib
- +** **OVERALL DIMENSIONS:**
from: w. 2,50 m , l. 1,50 m , h. 2,45 m
- +** **ELECTRONIC/HYDRAULIC EQUIPMENT:**
IMC integral machine control
FX900 control unit
D900 digital distributor bank
RCH/RCS radio remote control unit
ADC automatic dynamic control
FX901 - touch screen display
flow sharing
- +** **CHARACTERISTICS:**
dynamic version (.2): with linkage
XP device
Prolink system with double linkage
continuous rotation on a slew ring

When fitted with our 4m x 2.5m box body, the Fassi Lorry Loader has the ability to deliver and collect loads to and from confined and restricted working areas. Because of its smaller footprint, along with the flexibility it offers with variable out-rigger positions, it proves to be very versatile to manage the toughest of tasks.

Due to an increase in London and home county work we are pleased to announce the opening of a London office; located close to Heathrow Airport, where we continue to support airside projects. All staff carry full ID passes, and our vehicles all carry apron passes meaning ease of all access areas at Heathrow Airport.

Office address:

Eastern Business Park | Eastern Perimeter Road | Heathrow | London
